Re: Radiation (Cobalt 60) Concerns for Stainless Steel

Dear Sir / Madam:

We are aware of and have reviewed the radiation concerns for Stainless Steel products with of all our vendors.

Our vendors have assessed these concerns and have varying safeguards in place as part of their operating procedures to ensure there is no radiation contamination.

We declare that we have not received any Stainless Steel raw material contaminated with Cobalt 60 or any other radioactive substance.

Sincerely,

LEE SPRING COMPANY

Albert G. Mangels
